

MISSISSIPPI MUSEUM OF NATURAL SCIENCE PROGRAMS FOR

GIRL SCOUTS

GREEN LEARNING PETAL

DAISY GIRL SCOUTS

“Use Resources Wisely”

Join us for a five senses hike on the Museum’s nature trail.
Learn about the Museum’s plants and what they do for wildlife.

ECO-EXPLORER

BROWNIE GIRL SCOUTS

Ecology is the study of how plants and animals live together in the environment.

#1 Exploring Nature

Find both living and nonliving things in the natural environment through a scavenger hunt at the Museum. (We will be outdoors in good weather and indoors in inclement weather.)

#4 Food Chain

Understand how a food chain works by dissecting owl pellets.

EARTH CONNECTIONS

JUNIOR GIRL SCOUTS

#5 Eco-Games

Play a game that shows how plants and animals depend on each other.

#8 Plants and People

Hike the Museum nature trails and learn about native plants.
Find out if Native Americans or early pioneers used these plants for food or medicine.
Discover their uses for wildlife habitat.

HELPFUL HINTS:

1

If you plan on a snack time for your group, you may enjoy using the Museum’s pavilion. Plan to arrive early enough so that you can finish your snack and be ready for your program by 4:00PM.

2

Arrive on time and be prepared to begin your program promptly at 4:00PM. The sooner we get going, the sooner the fun can start!

3

Please silence your cell phones for the duration of the program.

4

Commit to the full hour of your program. The more time we have with you, the more wonderful things we can explore together.

DATES
Every Thursday
in November
until mid-March

TIME
4:00PM-5:00PM

GROUP SIZE
10 to 25 scouts per group

FEES
\$2 per scout
(in groups of 10 or more
with one adult free)
\$5 per additional adult

**RESERVATIONS
REQUIRED
TWO WEEKS
IN ADVANCE**

Call
601-354-7303!
